

# Resume Improvement Prompts & Suggestions

## 1. Strong Summary

Improvement: Your summary is good, but we can make it sharper and focused on measurable impact. Example: 'Web Developer with 1.5 years of experience in building responsive, high-performance web applications using React.js, Node.js, and MongoDB. Skilled in API integration and e-commerce solutions with proven ability to deliver projects on time.'

## 2. Role-Specific Bullet Points

Improvement: Add backend-specific impact. Example: '- Developed RESTful APIs with Express.js and MongoDB, enabling smooth data flow across applications.'

## 3. Quantified Achievements

Improvement: Use numbers to show results. Example: '- Improved website performance by 25% by optimizing React components.'

## 4. ATS-Friendly Resume

Improvement: Add keywords for ATS (React.js, MongoDB, REST APIs, responsive design). Example: Replace generic terms with 'Developed full-stack applications using React.js, Node.js, and MongoDB.'

## 5. Resume for Career Switch

Improvement: Highlight transferable skills for AI. Example: 'Experience with JavaScript and Node.js logic flows useful for machine learning model integration.'

## 6. Skills Section

Improvement: Update with in-demand 2025 skills. Example: 'TypeScript, Next.js, REST API, GraphQL, Problem-Solving, Team Collaboration.'

## 7. One-Page Resume Version

Improvement: Condense redundant parts. Example: Keep only 2 projects (E-Commerce & Portfolio), remove repeated contact info.

## 8. Tailored Resume for Job Description

Improvement: Align with internship roles. Example: 'Designed responsive frontends with React.js and integrated MongoDB for dynamic content.'

## 9. Grammar & Tone Check

Improvement: Fix clarity. Before: 'Passionate about building websites.' → After: 'Passionate about creating scalable, user-friendly web solutions.'

## **10. Resume for Freshers**

Improvement: Simple structure with education, skills, and one project. Example: 'Final year IT student with strong foundation in HTML, CSS, JavaScript, and React.js. Built portfolio and e-commerce site as academic projects.' Urdu Explanation: 'Yahan maine aapki resume ko beginner friendly banaya hai jisme sirf education, skills aur 1-2 projects mention kiye hain. Is se recruiters ko jaldi clear hoga ke aap fresher hain aur basic skills strong hain.'
